STAND UP FOR WHAT YOU BELIEVE IN – STAND UP FOR BRITISH FASCISM

### **A fascist is not a national Socialist**

Time and time again I see people who claim to be fascists standing along side the swastika banner of the third Reich. To often do we stand shoulder to shoulder with the National Socialists and their different movements as if we are all brothers in arms fighting the same war, we are not. A fascist is not a national Socialist we want very different things, we want a different state. We all know that for many it may seem appealing but our own Fascist ideal is far greater and far more imbedded in our blood than anything else. We must understand what being a Fascist is, what it means for our lives and our nation. We are not National Socialist, who seek the purity of race above all else, we are Fascist who seek the state

above all else, the state as our leader in all things in all our lives. As fascists we do not place socialism in any form at the forefront of our political thought, for socialism seeks only disorder and chaos and drives the person down at the expense of the state.

Fascism is the complete

opposite of Marxian Socialism, the materialist conception of history of human civilization can be explained simply through the conflict of interests among the various social groups and by the change and development in the means and instruments of production. After Socialism, Fascism combats the whole complex system of democratic ideology, and repudiates it, whether in its theoretical premises or in its practical application. Fascism denies that the majority, by the simple

fact that it is a majority, can direct human society; it denies that numbers alone can govern by means of a periodical consultation, and it affirms the immutable, beneficial, and fruitful inequality of mankind, which can never be permanently levelled through the mere operation of a mechanical process such as universal suffrage. Fascism denies, in democracy, the absurd conventional untruth of political equality dressed out in the garb of collective irresponsibility, and the myth of "happiness" and indefinite progress.

The foundation of Fascism

is the conception of the State, its character, its duty, and its aim. Fascism conceives of the State as an absolute, in comparison with which all individuals or groups are relative, only to be conceived of in their relation to the State. The conception of the Liberal State is not that of a directing force, guiding the play and development, both material and spiritual, of a collective body, but merely a force limited to the function of recording results: on the other hand, the Fascist State is itself conscious and has

**STAND UP FOR WHAT YOU BELIEVE IN – STAND UP FOR BRITISH FASCISM**

itself a will and a personality, thus it may be called the "ethic" State. The Fascist State organizes the nation, but leaves a sufficient margin of liberty to the individual; the latter is deprived of all useless and possibly harmful freedom, but retains what is essential; the deciding power in this question cannot be the individual, but the State alone.

For Fascism, the growth of empire, that is to say the expansion of the nation, is an essential manifestation of vitality, and its opposite a sign of decadence.

Peoples which are rising,

or rising again after a period of decadence, are always imperialist; and renunciation is a sign of decay and of death. Fascism is the doctrine best adapted to represent the tendencies and the aspirations of a people, like the people of England, who are rising again after many centuries of abasement and foreign servitude. But empire demands discipline, the coordination of all forces and a deeply felt sense of duty and sacrifice. Never before has our nation stood more in need of authority, of direction and order. If every age has its own characteristic doctrine, there are a

thousand signs which point to Fascism as the characteristic doctrine for our time. For if a doctrine must be a living thing, this is proved by the fact that Fascism has created a living faith; and that this faith is very powerful in the minds of men is demonstrated by those who have suffered and died for it.

Let us go forward in step with our fascist ideology and seek the fascist state and the fascist flag. We must love our fascism and cherish what it means and not cheapen it by

standing in line with those racial purists and anti-Semites who would bring calamity down on us as they have done in the past. Our doctrine is the most perfect of all political doctrines and the sooner we understand what we are and who we are and what fascism is and how it effects our lives the sooner we will forget the swastika flag and the national socialists and their doctrine of evil. I am fascist and proud because I know what it means to be a fascist. Our faith, our doctrine must be the pursuit of the fascist state above all else either through the ballot box or in our case through revolution. We are striving everyday for this but I fear that we may become

side tracked with the politics of the struggle. Our way to power is blocked by the economic vested interests of big business and corrupt government, so we must strive to win our state whatever way we can, we must remember that the state is above all and is our hope and our future. We must stand by our fascist doctrine and do what it takes to win the day. I know what fascism is and what the doctrine is do you?

*Guglielmo Marconi:*

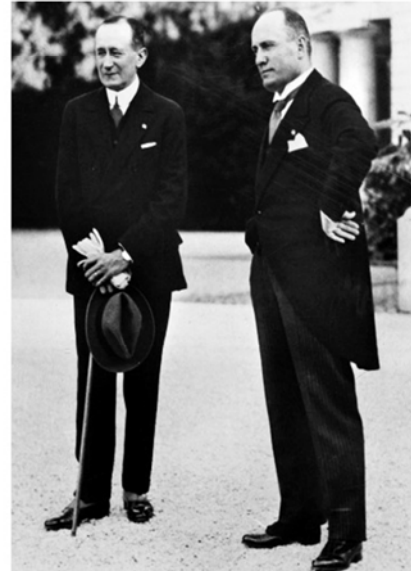

**Another great  
Fascist you may  
not have been  
told about ...**

Back in the days when “real education” still existed, we were all taught a little about the Italian inventor, Guglielmo Marconi. He’s credited with the invention of radio, and the wireless telegraph. He was a friend (some say rival) of American scientist Nicola Tesla. But one thing that was always “overlooked” in school, was the fact that Marconi was a dedicated Fascist, having joined Mussolini’s party in 1923. Mussolini was the Best Man at his second wedding, and was present at his state funeral. Marconi was also a member of the Fascist Grand Council.

It is said that he died at age 63, following several heart attacks. But one source states that he faked his death, and moved to Peru to pursue alternative energy designs with a number of other prominent scientists.

*Above: Marconi in 1899, with his experimental radio. Right: With Mussolini, date unknown.*

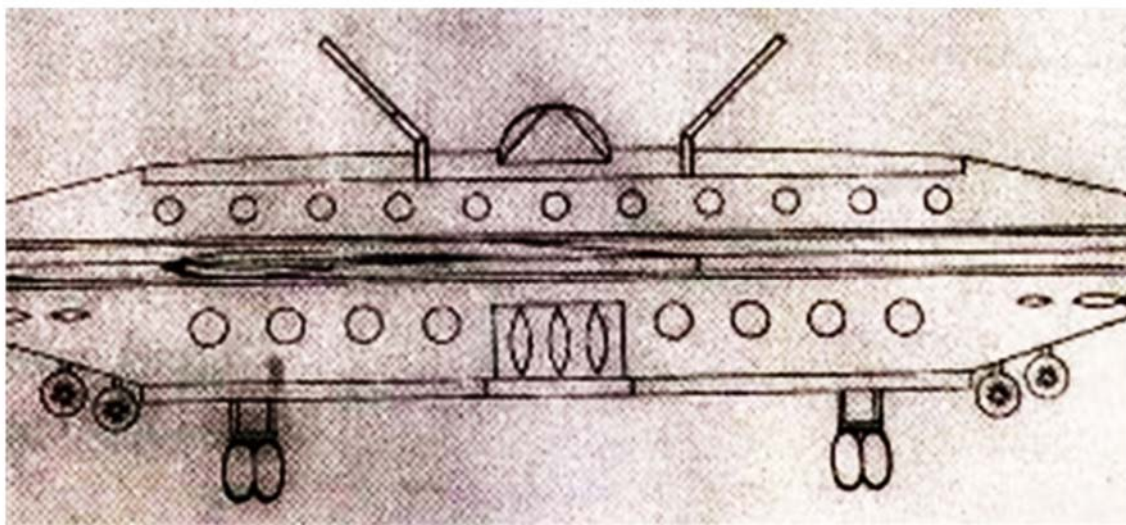

*Left: Marconi in uniform, again with Mussolini; right, with Sir Oswald Mosley.*

This might not seem so strange, when you consider one other curious fact. In 1933, Italy recovered a crashed flying saucer. There were reportedly no bodies (as was the case with the Roswell incident of 1947,) but the craft was well described; see illustration below, made at the time. Marconi was appointed by Il Duce to head the committee which studied this vehicle. Why? Perhaps because Marconi was an Italian member of the “Vril Society,” another fact that isn’t well known or widely publicized. And that group was very much interested in alternative power sources.

If true ... well, no telling what those rascally Fascists might get up to, eh?

THINK BEFORE YOU VOTE  
– OR DECIDE NOT TO!

At the last General Election in 2017, 68.7% of the electorate voted. This was the highest turnout since before 2001, but it still showed that more than 30% of the electorate did not bother to vote. Why? Because that 30% knows that a vote for one of the 'Establishment' political parties, whatever 'label' they mask themselves with – Conservative, Labour, Liberal Democrat etc – is a vote for Globalist Liberal traitors who will ensure that mass immigration, most especially from Pakistan and other Islamic countries, continues unabated. You will NEVER see this declared in ANY 'election manifesto' – NONE of the major Parties will openly say: 'We are going to allow and encourage mass immigration to enrich our culture, especially from Islamic countries'. They never have and they never will! The Globalist Liberals, like Theresa May (Corbyn and his cronies are even worse!) and at least 330 other MP's, call this mass invasion, 'Cultural Enrichment'. Did our British culture need to be 'enriched'? Terrorism,

murder, rape, organised paedophilia are surely things we could have happily lived without? Do we really need to have 3+ million Islamic parasites living at our expense and decreasing the level of our pensions, benefits and NHS and adding to our taxes? How can ANY culture be enriched by Islam, a cult that has made NO progress for 1000 years and whose spokespersons – the Muftis, Imams, Ayatollahs et al – declare that not only do they not want progress, they also want to destroy any civilisation that is not their own! Just listen to Anjem Choudary or see what they preach in mosques throughout the UK on YouTube (Nothing in the mainstream media like the BBC or CNN which are globalist liberal controlled)! Hindus, Sikhs, Buddhists and people of other religious beliefs, together with atheists (like myself) and agnostics are all happy to integrate and enjoy the benefits of our Western civilisation and to contribute to it – it's the reason they came here. The Islamics are here not to integrate, but to invade and to live as parasites on the Tax Payers while they do it, breeding like flies – With the full collusion and

approval of the Globalist Liberal political class who form the government.

The major concern by far of the British people since the 1970's has been uncontrolled and unrestricted immigration, resulting in the erosion of our culture and way of life; this was amply demonstrated by the turnout for the EU Refrendum, where the decision to vote for 'Brexit' was, predominantly, rooted in our desire to STOP mass immigration. In 1968 Enoch Powell gave his famous 'rivers of blood' speech, for which he lost his position in government; the media at that time labelled him as a 'racist and maniac' – sounds familiar? The census held in 2011 showed that just over 33% of the population of London were 'White British', the majority were not and that's why the London mayor is a Pakistani muslim today! If this fact had been declared in 1968, virtually everyone would have said it was rubbish and could never happen – so be warned!

Be aware of the changes in Globalist Liberal government propaganda. For decades now –

STAND UP FOR WHAT YOU BELIEVE IN – STAND UP FOR BRITISH FASCISM

throughout Europe – the globalist liberals and Soros puppets have used their 'ultimate weapons'; labelling their opposition as 'Racists', 'Imperialists', 'Fascists' and 'Islamophobic'. These 'labels' that they are so fond of have been propagated to the point where any opposition would quiver in terror and be put on the defensive or into outright retreat at these 'label guns' being pointed at them. Again, I ask WHY? Anyone with any intelligence knows that the Globalist Liberals simply use these 'labels' to describe anyone who is Patriotic and proud of their civilisation and race. The 'White Race' has indeed been responsible for conquests and exploitation in the past, but we have also been responsible for the greatest advances in science, technology and medicine which have improved the quality of life for every human on the planet. Islam has been responsible for greater conquests and atrocities – and still is! – and hasn't contributed anything of worth for

are now aware that their 'Islamic pets' are more 'Imperialist', 'Racist' and 'Fascist' than any other people in the world!

Please remember all this when you next go to Vote – and you SHOULD vote! Ignore the 'labels' and understand that a vote for an 'Establishment Party' is a vote for Globalist Liberalism and the destruction and betrayal of your way of life! Your vote for a NBU candidate or even a BNP or England First candidate if there isn't a NBU one, is NOT a vote wasted, it is a vote for independence and the preservation of our culture and race, for ourselves and generations yet to come!

1000 years. SO – you will now notice that the Globalist Liberals are having to be more careful with their use of 'labels', because their opposition

## HAVE YOUR SAY wireless and TV.

My dad, Vic Stone, came home in 1945 after serving as a volunteer in the RAF throughout the War and as I was only eight it took some time to get to know him.

I do remember him after a while telling me that I should try and never speak words in anger I could regret later and never write and send words out in anger at all! So I have waited four days before sending this letter!

Recent reports about the abuse and rape of 1,000 white English girls in Telford over 40 year by men of Asian heritage are remarkable because they show the savagery that happened in Rotherham, Rochdale, Derby, Newcastle, Oxford and elsewhere is clearly not confined to those cities.

Yet it seems to have got little mention on the

When white, working class children are the victims of racially aggravated rape and violence the white, middle-class liberals who run our broadcast media seem not to be bothered.

It is impossible to think of them taking such a line if white men were raping Asian children!

Our media bosses instead put forward the myth that the indigenous working-class are racist and xenophobic when all the while, it seems, poor whites suffer the most racially motivated violence.

It is hard not to think that the word "racist" is but one road of the upper orders disciplining the working-class!

To make matters worse, at the time of these horrific crimes, the West Mercia Police sent out a memo reminding everybody involved in the case that many of the girls were agreeable to sex taking place.

These girls were vulnerable and and some as young as eleven! May God help us.

### **New British Union is truly a great step for Mosleyites everywhere.**

You have truly established a movement that can prove to the people, both minority or majority, that Fascism is good for all of us.

Mosley has been a great inspiration for me for the past few years, his words plus the current situation we Brits find ourselves in almost automatically converted me to Mosleyite Fascism. I am now committed to this idea and therefore this movement.

I have been leafleting and spreading the word in my local area, and hopefully one day I will put on the blackshirt with you comrades.

### **In our quest to align parish councillors with our ideology,**

my efforts have born fruit - a family friend has pledged to support our group's ideology. He is the chairman of a parish council; a 6th-generation farmer with traditional values and a virtuous family. He also owns the water supply for the area,

## **Fascism And National Socialism:** Clearing Up Some Of The Confusion

*By Seth Tyssen*

Well, hopefully at least. Certainly, there are similarities. But there are also differences, rather important differences. And it doesn't help that, even back in the 1930's, people used to confuse and mix the two. Like these chaps from the Imperial Fascist League, for example. (I'll have more about them, in a future article.) Even the Fuhrer and Il Duce could complicate matters. Below, for example, is Hitler greeting Mussolini during Il Duce's visit to Germany. It's the **ONLY** time Hitler ever wore the Fascist triangular patch, and an Italian Fascist dagger.

Both systems are militaristic in structure. Both recognize the authority of a strong leader. Both are anti-Communist. Both are nationalistic. In both systems, the State was in control of the monetary process, and big corporations (not the other way around, as is the case almost everywhere today.)

Anti-Jewish sentiments and race were the basis of National Socialism, but this was not the case with Fascism. The head of the local Fascist Party in Rome was also the Chief Rabbi of Rome, and the guy who trained Mosley's Blackshirts in fisticuffs was the Jewish boxing champion, "Kid" Lewis.

and is well-respected in  
the community.

STAND UP FOR WHAT YOU BELIEVE IN – STAND UP FOR BRITISH FASCISM

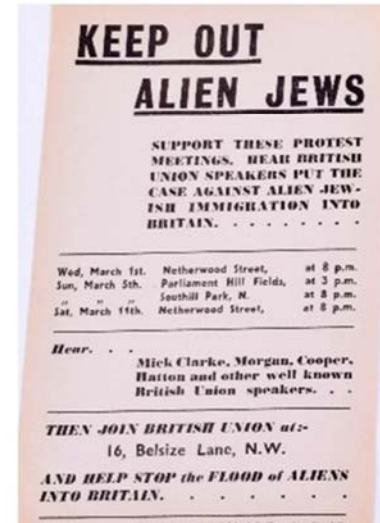

It's also quite true that Italy eventually enacted laws aimed at Jews, in 1938; this was most likely because they became alarmed by the strong and dangerous neighbor to their north. The first time German troops tried to "enter" Italy, they were repulsed.

The British Union of Fascists also included National Socialists, and Mosley found that this was a bit like mixing oil and water. It just didn't work out all that well. But even their own material seems to stress "alien" or immigrant Jews, not those who were British-born citizens.

Modern Fascism would be well advised to turn the militaristic nature of Fascism

inward, to help rebuild the infrastructure of one's native country. And while it's no secret that we oppose Zionism, which has gone from being a philosophy that only sought a Jewish homeland to one that seeks financial world domination, and we promote race consciousness, there need be no hatred involved. Indeed, it should be remembered that there were a great many Muslim Fascists back in the day! Strange as that must seem, today.

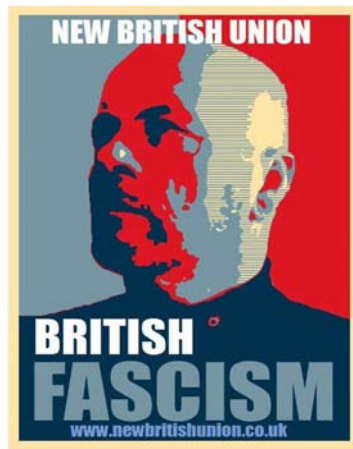

The BUF flyer at left probably sums it up best, and though it's geared to Britain it could apply, anywhere.

The National Socialists are welcome to their point of view, and while we might agree with a certain amount of it, we are not National Socialists; we are Fascists. First, Foremost, and Always.

--- ST

**Brother and Sister  
Fascists, the country's**

STAND UP FOR WHAT YOU BELIEVE IN – STAND UP FOR BRITISH FASCISM

need is great. Never in the history of Britain have its enemies been so strong, or so determined to bring about its downfall. We know that Fascism and only Fascism will save us from the evils of Cultural Marxism, Communism and Bolshevism. fascism is the purest form of patriotism, putting Britain and the British first always, not sometimes when it suits, as the political elite does.

It is essential that now, as never before, we determine, each and every one of us, to become a spokesperson for the cause we have at heart. The time is ripe, wherever we go, at work or play, we should remember that thinking people of all classes are realising the failure of the party system, anything up to 70% no longer even vote, they see the need for sane practical remedies. Fascism alone can supply those remedies.

The public are awakening,

are you Fascists sleeping? So many of you are strangers to NBU Office that we are wondering if we should all be wearing black armlets instead of Flash and Circle ones. Your duty to the movement is a great one. each and every day you should, think, talk and write (not dream) Fascism.

**Fighting elections you cannot win** is a waste of your members time, effort and money, begging letters will no doubt be dropping on your door mats very soon. Only disappointment, disillusionment and crashing morale await the old nationalist parties after the general Election. Parties that have had 40 years to appeal to voters will once again poll in double figures if lucky! The election over they will go back to the begging letters to pay their wages and get ready to do it all over again. All of them have shrinking memberships, none of them appeal to the

people, big fish in a shrinking pond with a drought looming over the horizon.

There is another way, a better way, the British Fascist way! Disciplined, dedicated, directed. Put simply it is putting the aims of British Fascism to the people away from the political party arena. This is not anything new to British Fascism, back in 1927 The British Lion, the newspaper of The British Fascists, featured an article headed 'Is Fascism political?' This was one of many such articles discussing if Fascism should remain a movement or become a political party. Later Mosley's BUF also concentrated on building a movement before contesting Parliament elections.

Both movements had members elected at council level, these at first were elected as 'Independents', later the BUF had candidates elected as Blackshirts. NBU has members elected as independents who are working to bring our ideas into the mainstream. This has been done away from the spotlight, or indeed the 'search light', no fuss, no marches, no demos, no confrontation. This is the quiet revolution, a covert operation getting the voice of fascism into

positions of authority  
across Britain.
